

Therapy Specialists

7711 East 111th Street South, Suite 127, Tulsa, OK 74133
P: (918) 691-3212, F: (918) 364-4276; alternate (918) 369-4551

When to Make the Referral:

- As soon as child is **identified with hearing loss**
- Any child who has **referred on a hearing screening**
- Any child with **chronic middle ear problems** resulting in speech-language delay; even if hearing thresholds are within normal limits following tubes
- Any child with **typical hearing exhibiting speech and language delays**
- Any family with concerned parents

Why Should I Refer to Prohab?

- Prohab Therapy Specialists provides a unique service in the Tulsa area for children with **ANY** degrees of hearing loss and their families whose desire is for a listening and spoken language outcome
- The mission is to provide support for these babies/children/families as soon as the child is identified and/or seen in the audiology clinic or pediatrician's office
- The auditory-verbal therapist guides/coaches families through navigation and trouble shooting of hearing technology, promotion of auditory living and on how to be appropriate and effective language models
- Prohab is interested in collaboration with pediatricians, audiologists and ENT's in order to encourage families to follow-up with appropriate professionals as the need arises as well as to provide a cohesive team structure
- Only clinic at this time with a certified auditory-verbal therapist
